

## **Students of BIT Participated in Smart India Hackathon National Championship Finale-2019.**

6 students of 2nd year Computer Engineering, Bajaj Institute of Technology, were selected for Smart India Hackathon National Championship Finale-2019. They were among only 100 teams selected at National level. The students who have selected were:

1. Radhika Dorlikar, 2. Sakshi Jinnewar, 3. Sakshi Thakre
4. Saurbah Shete, 5. Amit Admane, 6. Ashish Korde

They developed responsive web portal and Mobile application "E -Farmer". This application was developed for agriculture and to provide employment opportunity to rural youth. It's a mobile application through which the farmer can directly sell out their crops and vegetables to urban consumer without involving any third party. Student designed, developed and presented their idea and application at college of Engineering, Chandigarh.

This is precious achievement for the 2nd year students and the Institute as they competed with 3rd and 4th year students of the IITs, NITs and other reputed Engineering Institutions.
